The motion was carried.

Report of Fire Department

The Department has responded to twenty-six calls during the past year, six of which were out of town calls.

Total estimated damage covered by insurance was \$1,150.00.

Total estimated damage of property not insured \$1,700.00.

We have been fortunate that all fires were reported early and the department was able to control the fires before much headway was gained.

The tank truck has proved a valuable asset at most of the fires both in our own community and in the neighboring communities.

A new well was dug at the fire house this year and provides an ample supply of water. The well is twenty-six feet in depth and six feet in diameter.

There is at the present time sixteen feet of water in the well.

We wish to express our appreciation for the cooperation that you have given the department in the matter of fire control.

Remember before you start a fire in the open first obtain a permit from the State Fire Warden. He is the only person authorized to issue a legal permit for this purpose. Our local State Fire Warden is Robert Merrick; there is no fee for the permit and whenever conditions are favorable he will gladly issue the permit.

Enlist your aid in the local paper drives not only as a cooperative gesture to the sponsors but to eliminate an unnecessary fire hazard that could cause you a serious fire loss.

Your Fire Department stands ready to serve you day and night in any emergency and in this hour of world uncertainty you can expect us to support any emergency defense organization that may be authorized by the Federal, State or Local government.

I wish to urge all citizens of the town to cooperate to the fullest extent with our civilian defense administrator in any capacity in which you are asked to serve. We should all acquire a thorough knowledge of what to do in case of an unexpected attack. It is only by complete unity that we can hope to survive an atomic invasion of our country. It is the responsibility of every citizen to be prepared for any emergency that may arise from present world conditions.

Again we wish to express our appreciation to Elinor Martin and her assistants for the prompt and efficient service they have given us during the past year. Without their splendid cooperation our fire losses would be much greater.

We are aware that every one is interested and ready to help the department in any way they are able and we are grateful for your support. You can help us by refraining from calling the operator to ask where the fire is for ten minutes after the alarm is sounded. It is most important that the firemen are called in the least possible time this can only be accomplished when the operator has all the circuits to work with.

WILLIAM G. SIMES,
Chief of Fire Department.

REPORT OF THE LIBRARIAN

On the evening of April 25 a neighborhood meeting was held at Nichols Memorial Library. Mr. Andrew Christie, chairman of the board of trustees, welcomed the assembled librarians and trustees. Besides a general discussion period, there was a talk by Miss Catharine Pratt, of the State Library on periodicals and on the library standards. Mrs. Gladys M. Merrick gave a talk on work with school children. There were exhibits of new children's books and new periodicals, which were discussed by Miss Rosalie Wright of the State Library staff.

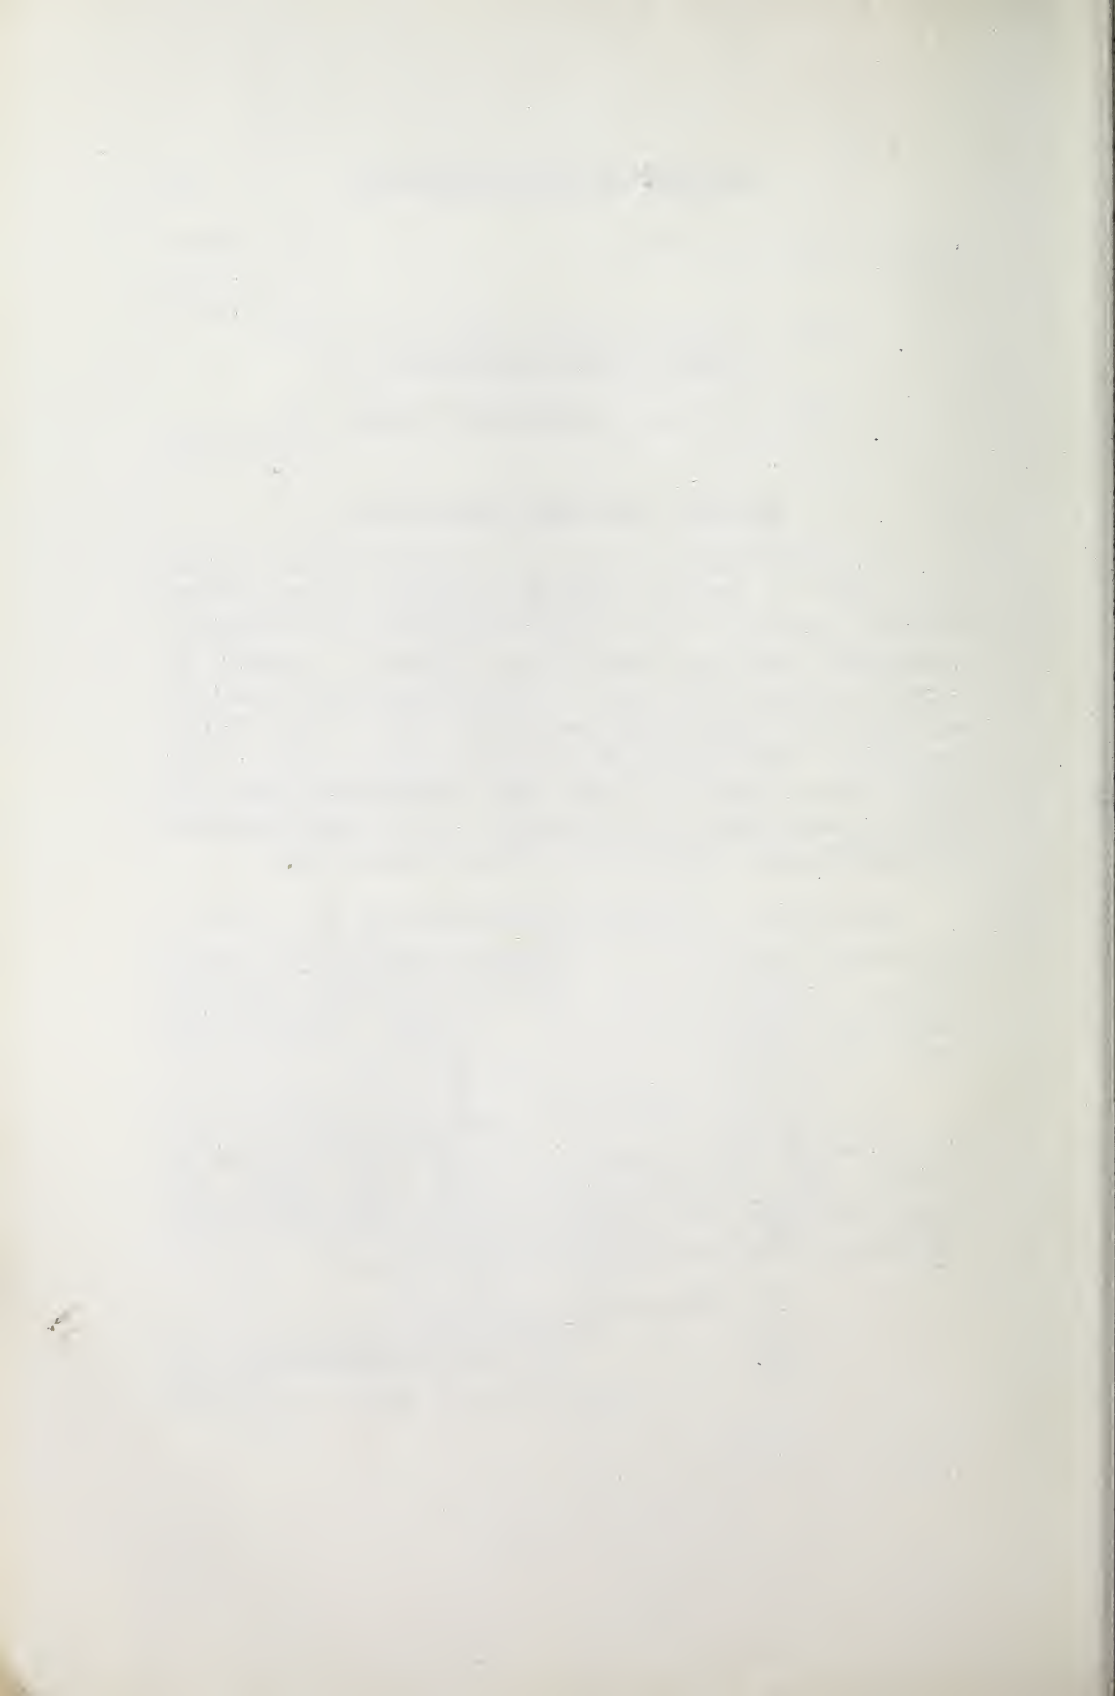

The library has continued to develop its service to the school children. Use of reference books by the students shows a marked increase. We received State Aid again this year which helped us to purchase supplementary books for high school and the upper grades.

We wish to express thanks and appreciation for the books which were so generously contributed by the following: Mrs. Raymond Avery, Mrs. John Bakie, Miss Marjorie Childs, Mrs. Andrew Christie, Mrs. Harry Clark, Walter E. Gibson and William Harlow.

Respectfully submitted,

GLADYS M. MERRICK,

Librarian.

Superintendent's Annual Report

To the School Board and the Citizens of Kingston:

The past year has brought many changes to the general educational picture throughout the state. The present international and economic situation is conducive to lack of stability. Price increases in cost of living and practically all other items cannot help but be reflected in the school district's budget. Kingston also has the problem of an ever increasing school enrollment as shown by the very able and complete report compiled by Mr. Fuller in his census. It is hoped that these factors will be given careful consideration.

This report is accompanied by a page devoted to Return of District Revenue, which shows the actual budget we are operating on this year. (1950-51) In comparing this with next year's budget one must bear in mind the increased cost of school supplies as well as the fact that good schools require continuity in their teaching staffs.

Teachers

Kingston can well be proud of its staff of teachers. They are doing a fine piece of work although in most all cases they are teaching in crowded classrooms.

Hot Lunch

The hot lunch program is exceptionally well organized and successful. The addition of an overgrown tea table on wheels has been an important factor in facilitating the distribution of lunches to the classrooms. The fact that a high percentage of the school population is participating in the hot lunch program is a good indication of the program's real worth. The P. T. A. is to be commended for its continued interest in this program.

Looking Ahead

According to the best figures available (Mr. Fuller's census report) Bakie School's enrollment will increase to 189 pupils by the year 1955. Where the school's facilities are already taxed with an enrollment of 167 with the auditorium used as a classroom, it would seem only logical that Kingston is in a position where something must be done to provide added classroom space. If Kingston is to maintain its present high standard of educational procedure this problem must be solved in the very near future. The experience in other towns has been that good schools have encouraged families to settle in that town. This appears to be true of Kingston.

Finally, I wish to express my appreciation to the school board, citizens, teachers and pupils of Kingston for the spirit of cooperation and friendliness with which they have received their new Superintendent.

Respectfully submitted,

LOUIS L. RAMSAY,

Superintendent.

Report of Music Teacher

To the Superintendent and School Board, Citizens of Kingston:

Children learn a great deal about music through songs, rhythms, folk dances and games. These activities will add greatly to their enjoyment and understanding of music.

A Christmas Operetta, Santa in Story-Land, was presented at the town hall in December. Through the splendid cooperation of teachers, parents and pupils this program proved a success.

New books, Let Music Ring, have been purchased for grades seven and eight and the children are getting a great deal of pleasure from these books as well as progressing musically.

Grades five and six, under the direction of Mrs. Brown, are continuing with their tonettes and they are becoming fine music readers.

A folk dance club meets on Friday afternoons and a number of new dances have been learned. It may be possible for a group to participate in the New Hampshire Folk Dance Festival as did sixteen students last year.

In addition to the above described work the usual program has been carried out. Each child has been given instruction appropriate to his grade in music theory, music appreciation, folk dancing and rhythm band work.

I wish to express my appreciation to the School Board, Superintendent, teachers, parents, pupils and other citizens for their cooperation.

Respectfully submitted,

JEAN L. READIO,

Music Supervisor.

Health Supervision

To the Superintendent of Schools and the School Board:

Your school nurse welcomes this opportunity to inform you in regard to what has been accomplished from the standpoint of health education during the past year.

The children received the usual yearly physical check-up consisting of an examination of teeth, tonsils, posture, vision, and hearing as well as weighing and measuring. Little Health Talks on timely subjects were given in the classrooms. Home visits have been made, and follow-up work carried out.

Probably no subject is of greater concern to parents and teachers than the health of the children in their care. The parents have shown an increased interest in establishing a closer relationship between school and home in the mutual striving for better health objectives.

The Maico Individual Audiometer, a recent acquisition of our union, has been most useful not only as a hearing test, but as a check on the possible impairment of hearing caused by measles, ear infections, scarlet fever, etc. The T. B. Patch Test was given to pupils in the seventh and eighth grades. A corrective posture program has been carried out in cooperation with the State Physio-Therapist.

The hot lunch program continues its success and has maintained a fine level of efficiency.

In closing I wish to express my thanks for the full cooperation of the parents, teaching staff, friends, and public organizations that have given time and enthusiasms toward the betterment of our health program.

Respectfully submitted,

CONSTANCE COOPER,

School Nurse.
